Acknowledgement

The Government of Nepal has formulated Information Communication Technology (ICT) Policy, 2015 with the vision of transforming Nepal to an informed and knowledge-based society by 2020 through a massive expansion of ICT across the country. The goals of the ICT policy state that more than 75% of Nepali people will be digitally literate; 90% population will have access to broadband; every citizen will have access to internet and 80 % of government services will be provided through online systems.

To achieving the goals, Ministry of Education, Science & Technology has initiated to establish community-level ICT center at the local levels, school levels and community libraries including e-service centers. The “Education in Figures 2017 (At a Glance)” has been developed through the compilation of both school and local levels’ information. This report has been a key foundation for conveying comprehensive educational information and contributed as an instrument for the policy makers, researchers, teachers, students and academia. This report has captured wide-range information related to Early Childhood Education (ECD) to Higher Education of Nepal including Technical and Vocational Education and Training (TVET). It is a short glance of educational indicators related to educational inputs, process and outputs of Nepal's over all education system.

Ministry of Education, Science & Technology does have a great hope that this report would be extremely useful for stakeholders. In this occasion, the entire ministry system would like to express its special thanks of gratitude to those personalities and institutions that have engaged and contributed their efforts to initiate, finalize and publish this report into this shape and a timely fashion.
